Hi Mindy,

NEW PRODUCT: 74530-86

The above product has passed the quality control check. Please print the e-signed letter/e-stamped label (attached), file the hard copy in the jacket, close the action in OPPIN, and return the jacket to the file room. Include the Data Extraction Request Form for the new CSFs. Please notify me when you have closed the action in OPPIN. Your action can not be uploaded to PPLS until it is closed in OPPIN and the file symbol has been converted to a registration number in the system. Thank you.

Eleanor
